  - Thursday, April 28, 6:00 – 7:30 pm

- Free Registration: *Eventbrite link!*

4. **Architectural Control Committee:** We are seeking individuals interested in joining the River Place Architectural Control Committee. The ACC plays an important role in keeping River Place the best place to live in Austin. The Committee reviews and approves resident requests to make improvements to their residence. You don't have to be an Engineer or Architect to do this; common sense and a desire to enhance River Place is all that is required. The time commitment is to review requests once every 7 to 10 days, which takes about 1 – 2 hours each month. Current committee lead is happy to explain in more detail what is involved. Please serve your community by telling CMA 512.339.6962.
